Flinders Uni surf club	Late 1960s to early 70s Reformed Early 1980s	Grant Senior Stewart Allen		Grant Senior a firey might know more. I know I surfed with them in a comp against Christian surfers and other clubs at Moeys (moana) in the late 80s?? Grant Senior said "Flinders Uni had a surf club that originally started in the late sixties through to the early seventies, then we started it up again in the early 80's and that went on through that whole decade not sure if it is still going, we had some amazing local and national bands perform at the Uni bar, proceeds helped the surf team get to surf against other Uni's around Australia, Adelaide hosted the National competition in 1986." "The Moeys crew was a non competitive bunch of mates that met up at north moana in front of the road run off drain, there was and still is a pretty regular right hander there which we name glasshouse. I don't know if that would classify as a club although there were members cards printed, I think I might still have mine somewhere."
